

Existing Customers & Success Story

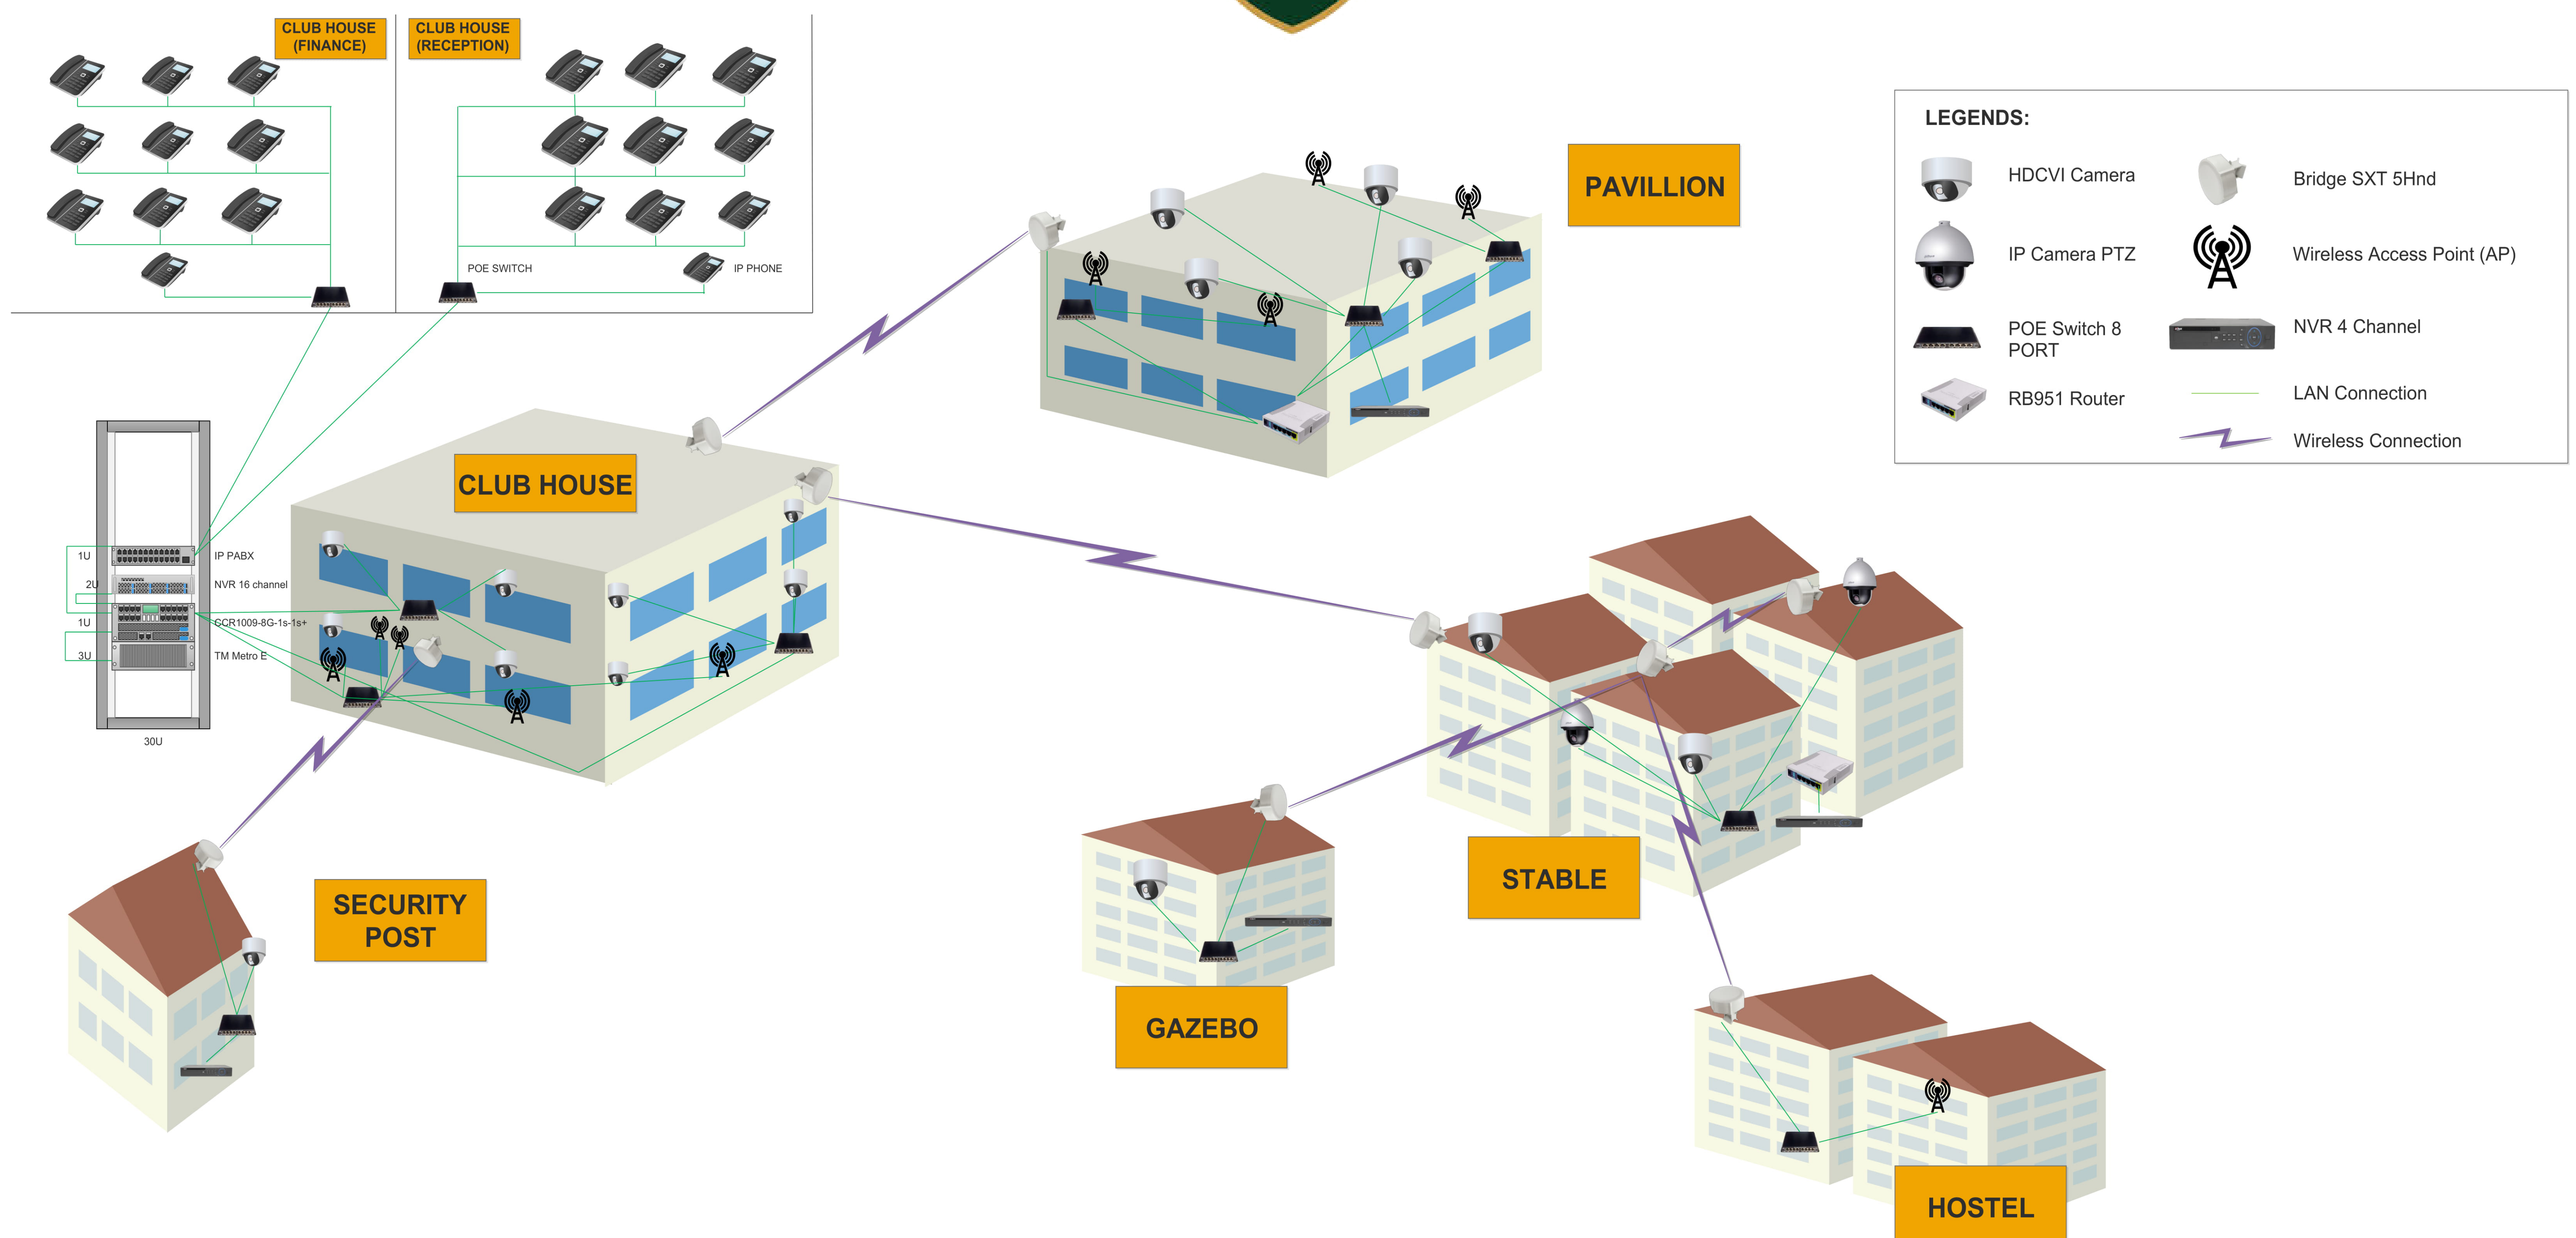

Unified Communication

[Enterprise Suite + IP PBX + CCTV + Managed WiFi]

Putrajaya Equestrian Park

Customer pain point

- ▶ Customers taking over venue from previous management company whom had pulled out all telecommunication infrastructure
- ▶ To find solution how to install and link telephony extension to several remote location
- ▶ To secure premise by allocating CCTV with centralized and remote monitoring system
- ▶ To provide Wi-Fi connectivity through-out all 2km radius via wireless bachaul link
- ▶ To reduce cabling cost by converge three IP solution together (IP PBX,IP PHONE,CCTV & Managed Wi-Fi) without degrading quality of services

Solutions

- ▶ Planned WiFi installation and enable managed Wi-Fi with better radius coverage
- ▶ Provided consultations, installations and consolidate merging configuration for PRI - IP Phone, IP PABX, Wi-Fi and CCTV
- ▶ Yealink IP Phone installation and configuration
- ▶ Installation 12 units IP CCTV and unified with wireless network and IP PBX
- ▶ Provide remote monitoring support services
